

# THE TITLE TIMES

## A MONTH OF SPECIALIZED SUPPORT

Students in our Quarter 1 groups have been working on individualized goals with our Title 1 specialists for over a month! This means we're at the progress monitoring mark.

Following progress monitoring, we will determine next steps for every child in the program, whether that's moving onto more complex standards, returning to full-time classroom instruction, or revisiting and practicing more foundational skills. We are ready to celebrate the growth students have made.

JOIN US

# FAMILY NIGHT

## UPCOMING FAMILY EVENT

Our Title 1 Family night has been rescheduled to **TUESDAY, NOVEMBER 7 from 4 - 5 PM** to honor the Nepali holiday and tradition celebrated on October 23. **We will be providing information, resources, and family activities!**

# FOCUSED ON PHONICS

*Did you know that Reading is a science?*

Modern research calls for direct phonics instruction to build the foundation for strong reading skills. Because we believe in best practices, our Kindergarten, first, and second grade Title scholars are focused on Phonics this year! At ICPA, we are delivering evidence-based Phonics instruction so that students master letter sounds and build fluency.

amazing

"If a child memorises 10 words, the child can only read 10 words. But if a child learns 10 sounds, the child will be able to read 350 three sound words, 4 320 four sound words and 21 650 five sound words."

- Martin Kozloff, 2002

# PROBLEM-SOLVERS

One of the best lessons we can teach to children is how to be a **resilient learner**. This means teaching children what to do when they're stuck and how to use strategies to help themselves. As much as we hate to see students struggle, we want to guide future independent problem-solvers. This month's resource is all about teaching your child what to do when a solution or skill is not easy to obtain.
