2025-2026 ANNUAL REPORT

IMAGINE COLUMBUS PRIMARY ACADEMY

EST. 2013

Our Mission

Imagine Columbus Primary Academy staff recognizes the needs of each learner by setting high expectations, using measurable outcomes and a growth mindset to achieve goals. Students have access to an inquiry-based, culturally relevant education that requires active participation in their learning while embracing diverse perspectives. These opportunities set the foundation for success in a global society. Students today, scholars tomorrow.

Curriculum

Imagine Columbus Primary Academy employs research-based, state approved programs including, but not limited to, Amplify CKLA, Fundations, Reading Mastery, Zearn and Amplify Desmos. The school also utilizes regionally developed Imagine Pacing Guides and Curriculum Guides for all core subjects in all grade levels.

Academic Goals & Results

Imagine Columbus Primary Academy believes that academic growth, alongside achievement, is the most appropriate measure of academic success. By analyzing growth data, we make informed decisions that foster positive learning experiences and challenge our students to soar. Our holistic educational approach embodies evidence-based and effective instructional practices. Imagine Columbus Primary Academy educators empower each student to make significant academic progress that is both measured and celebrated, all within a collaborative culture of high expectations.

The Renaissance Star assessment system is used worldwide as a multipurpose tool for screening and progress monitoring and includes resources for targeting instruction for individual learners. The Student Growth Percentile (SGP) is computed by comparing a student's growth to that of their academic peers nationwide. SGP is reported on a 1–99 scale, with lower numbers indicating lower relative growth and higher numbers indicating higher relative growth. For example, if a student has an SGP of 60, it means the student has shown more growth than 60 percent of academic peers. Normal Curve Equivalent (NCE) is a measure of academic achievement and is computed by comparing a student's performance against a national norms group on an equal-interval scale. NCE is reported on a scale of 1 to 99 with a value of 50 representing the average score for students at the same grade level.
