

Character Development

Sharing Learning and Growth: Our School Community

Building Character. Inspiring Growth.

At Imagine Columbus Primary Academy, character development is woven into our curriculum and school culture. Teachers and staff model our values, and students practice them through learning, relationships, and service. Working with families, we help students use strong character to guide their choices and actions.

OUR FIVE CORE VALUES

Integrity	I tell the truth, do what is right, and make honest choices.
Responsibility	I do my part, take care of my things, and own my actions.
Empathy	I try to understand how others feel and help when I can.
Determination	I keep trying, even when something is difficult.
Taking Initiative	I notice what needs to be done and help without being asked.

CHARACTER IN ACTION

Students build social-emotional skills through Second Step lessons and practice our core values in classrooms, schoolwide activities, and service-learning opportunities. Our goal is a caring school community where every student can grow academically and personally.
